

## RISK ASSESMENT

Risk Assessment for:	Use of Walkers Outdoors	Prepared by:	H&S Co-ordinator – S.L & V.D
		Assessed by SLT:	
Location:	ROSEWOOD FREE SCHOOL & AVENUES SITE	Date of Assessment	January 2023
		Review Date:	January 2025

Hazard	Who might be harmed?	Hazards Identified which may cause harm – consequence	Existing Level of Risk	Control Measure and Precautions Taken	Additional Control Measures or Further Action Required	Remaining level of Risk
Suitable walker for outside	Employees & Learners	Equipment failure. Walker tipping and cause learner to fall out of walker causing varying musculoskeletal & impact injuries.	Medium - 10	Following manufactory guidelines of individual walker. Walker never to be stored outside. Clean equipment after outdoor use for indoor use.	Annual maintenance checks by OT.	Low - 5
Suitable learner for outside walking	Employees & Learners	Impact injury causing bumps and bruising.	Low - 6	Only experienced walker that can tolerate different walking surfaces. Refer to behaviour plan if applicable. Suitable footwear. 1-1 ratio outside.		Low - 3
Suitable adult for outside walking	Employees & Learners	Muscular skeletal & other physical injuries	Medium - 10	Experienced staff member who knows how to alert for help in an emergency. Suitable protective footwear. 1-1 ratio outside. Follow guidance for walking inside school. Follow M&H training for posture and positioning.		Low - 5
Weather conditions	Employees & Learners	Poor weather causing slips, trips or falls.	Medium - 9	Walker not to be used when the flooring surface is excessively wet or has ice or snow on it.		Low - 3
Door threshold	Employees & Learners	Trips and falls over the threshold causing bumps and bruising. Muscular skeletal injury.	Medium - 9	Ensure doorway threshold is flat for smooth exit and entrance.	Inform M&H if any concerns	Low - 3

## RISK ASSESSMENT

Hazard	Who might be harmed?	Hazards Identified which may cause harm – consequence	Existing Level of Risk	Control Measure and Precautions Taken	Additional Control Measures or Further Action Required	Remaining level of Risk
Door frames	Learners	Bump into/on the doorway as it is an enclosed space causing damage to backs, neck, shoulders feet and hips. Impact injury causing bruising or cuts	Medium - 9	Ensure door is positioned or temporarily held open/back to allow clear exit as to not bump into somebody or frame. Staff mindful of pupil's limbs and individual movements.		Low - 3
Flooring	Learners	Walker tipping and cause learner to fall out of walker causing varying musculoskeletal & impact injuries.	Medium - 10	Walkers on smooth even flat surfaces only Ensure flooring is clear of hazards i.e., wet leaves, prior to going for a walk. Good housekeeping and flooring maintained.		Low - 5
Outdoor obstacles	Learners	Impact injury and falls.	Low - 6	Stay out of the swing and roundabout yellow zone. Avoid open windows. Be vigilant with mobile, independent learners and play equipment. Good housekeeping and flooring cleared.		Low - 3
Re-entering the class during poor weather	Staff & Learners	Walker leaving wet floor causing slips, trips or falls or loss of control of walker. Broken limbs, muscular skeletal & other physical injuries.	Medium - 10	Ensure there is a mat to dry off / clean feet & walker wheels during poor weather.		Low - 5
Malfunction of Rose Road lift	Staff & Learners	Use of walker in lift and failure of lift causing prolonged length of time in stander in turn possible damage to body. Confined space causing impact injuries and possible behaviour changes.	Medium - 10	No use of walkers in the lift.		0

**High** likelihood of risk – Likely to occur immediately or in the near future  
**Medium** likelihood of risk – will occur in time if no preventative action is taken  
**Low** likelihood of risk – Remote or unlikely to occur

## RISK ASSESSMENT

Date Reviewed	Comments
January 2021	Initial assessment
January 2022	Annual update. Added on use of lift.
January 2023	Annual update
